Dear Gator Traveler:

Few experiences can match one of the world’s most dramatic voyages, a cruise from the Atlantic Ocean to the Pacific through one of the greatest man-made wonders of the world, the Panama Canal. An engineering marvel when it opened over one hundred one years ago, the 50-mile passage through the Panama Canal continues to astonish even the most veteran traveler. Experience firsthand the mighty locks that raise and lower ships 85 feet using no other power than the force of gravity, accomplishing in mere hours what would have taken a three-week circumnavigation of South America in years gone by.

We invite you to join us for this voyage of a lifetime featuring a passage through the historic Panama Canal, following its centennial anniversary, and the unspoiled rainforests of Costa Rica and Panama at the best time of year. During our comprehensive itinerary, visit two UNESCO World Heritage sites and Panama’s ancient San Blas Islands, where the Guna Indians live much as they did centuries ago. Tour one of acclaimed architect Frank Gehry’s newest designs, Panama City’s Biodiversity Museum. Experience Panama’s and Costa Rica’s world-renowned and protected national parks—rainforests, islands and archipelagos that foster one of the most pristine ecosystems on our planet.

This unique University of Florida offering features the exclusively chartered M.S. SERENISSIMA, a classic small ship carrying only 90 guests and relaunched in 2013 following an extensive renovation. The M.S. SERENISSIMA provides an intimate atmosphere to enjoy the camaraderie of fellow alumni and a unique cruise experience.

This is an extraordinary and exclusive opportunity available only to affinity travelers, and it is an excellent value. I encourage you to book now while space is available.

Sincerely,

Danita D. Nias, Life Member
Executive Director & Sr. Associate Vice President

Called the “coast of riches” by the Spanish conquistadors who discovered it in 1502, Costa Rica offers visitors incredibly beautiful, ecologically diverse and fascinating cultural experiences. More than 25% of the country is a national park, wildlife refuge or protected rainforest, earning Costa Rica the distinction of the greenest country in the world and the leading eco-tourism destination. Explore lush rainforests, walk along exquisite beaches and see a stunning palette of wildlife, including howler monkeys, colorful tree frogs and Costa Rica’s 600 species of non-migratory birds. Costa Rica’s national motto is “Pura vida!” which translates literally as “pure life” but is better expressed by the optimistic, carefree spirit and the smiling faces of the ticos (Costa Rican natives) who welcome you to this spectacular landscape.

Cartagena, Colombia
This beautiful Spanish colonial city, founded in 1533 and named after Cartagena, Spain, is one of the best preserved walled cities in the world. Today, its massive fortifications and Castillo de San Felipe fortress are a designated UNESCO World Heritage site and an enchanting tribute to this “Ciudad Heroica,” which withstood countless battles over the centuries. Cartagena’s charming circular plazas served as the setting of the movie Romancing the Stone.

San Blas Islands, Panama
Located on the Caribbean side of Panama, the sun-drenched San Blas Islands are an extraordinary testament to Panama’s commitment to the indigenous Guna Indians, also known as the Kuna Indians, and their centuries-old language, customs and culture. Villagers live in typical thatched-roof huts, barter or trade in fish and agricultural products and paddle dugout canoes, their main mode of transportation. Guna women continue to hand-stitch traditional colorful molas (reverse appliqué panels) and wear winis, long strings of tiny beads wrapped around their forearms and legs in striking geometric patterns.
Panama City
Central America’s most attractive capital city was founded in 1519 by Spanish explorers and rebuilt in the late 17th century. Many historic edifices remain today within the designated UNESCO World Heritage site—Panama Viejo, the oldest European settlement in the Americas, and Casco Antiguo, with its cobblestone streets and its stunning 16th-century cathedral.

Adjacent to the Panama Canal, the Miraflores Locks Visitor Center provides an ideal opportunity to see how the locks operate. Nearby, the new Biodiversity Museum, designed by architect Frank Gehry of Guggenheim fame, showcases the ecological significance of Panama’s exotic flora and fauna.

Coiba National Park
Designated a UNESCO World Heritage site, Coiba National Park and its Special Zone of Marine Protection has emerged as a rich laboratory for studying coral, mammals and plants. In addition to 69 species of fish, humpback, orca, sperm and Cuvier’s beaked whales are known to migrate through the marine park’s perimeter.

Linked by an underwater mountain chain to the Galápagos, Granito de Oro is a small island within the park known as the “live aquarium of Coiba.” Enjoy an afternoon snorkeling among its vast array of exquisite marine life including parrotfish and orange-sided triggerfish.

The largest island in Central America and once an isolated political prison, Isla Coiba today is a host of terrestrial wonders—untouched rainforest, rugged headlands, pristine white-sand beaches and mangrove thickets—the perfect environment for the evolution of new and endemic subspecies and for the preservation and protection of endangered species.

Golfo Dulce, Costa Rica
Located along the southern Pacific coast, this secluded natural wonderland was declared “one of the most biologically intense places on earth.” Explore flora and fauna firsthand on the grounds of the Saladero Eco Lodge, an exclusive, pristine private property accessible only by boat and encompassing nearly 500 acres of primary old-growth rainforest, tropical gardens and beach, offering spectacular viewing of Costa Rica’s rich wildlife, including scarlet macaws and the endangered spider monkey. In nearby Casa Orquídeas, a stunning, maze-like botanical garden of over 100 species of orchids, bromeliads, heliconias and edible plants, visitors can observe colourful toucans, scarlet macaws and jewel-hued hummingbirds.

Manuel Antonio National Park
Experience an unparalleled diversity of wildlife in this lush tropical paradise, a captivating
A combination of rainforest, beaches and coral reefs, home to more than 100 species of mammals, almost 200 varieties of birds and various reptiles and amphibians. In this “Living Eden,” expert naturalists will help you spot vibrant toucans, screeching howler monkeys, camouflaged iguanas, squirrel monkeys and rare and endangered species such as the quetzal and scarlet macaw, protected by law in this natural haven.

Curú National Wildlife Refuge

Unlike traditional nature reserves, Curú Wildlife Refuge is a unique blend of sustainable agriculture, forest management and wildlife protection, encompassing five distinctly different untouched habitats making it the ideal place to see entire ecosystems coexisting. During a guided walk, look for the diversity of wildlife including pumas, anteaters, ocelots, otters and more than 230 species of birds.

San José

The horticultural diversity of Costa Rica, the “Garden of the Americas,” is evident in the parks of this vibrant capital city. San José is also an interesting mix of architectural styles, including Spanish Colonial, Moorish and Modernist. Its National Theater is a regal Baroque edifice modeled on Milan’s La Scala. The National Museum’s exhibits feature impressive pre-Columbian Central American artifacts.

Cartagena Pre-Program Option

Designated a UNESCO World Heritage site and the “Venice of Colombia,” romantic Cartagena is just the right mix of modern beachfront and colonial charm. Admire grand flower-decked balconies in the old walled city and visit San Felipe’s fort, the Convent of La Popa, Las Bóvedas and the Modern Art Museum. Accommodations for two nights are in the deluxe SOFITEL SANTA CLARA CARTAGENA.

Costa Rica’s Cloud Forests and Volcanoes Post-Program Option

A medley of Costa Rica’s diverse biospheres, this spectacular extension features the mysterious cloud forest, a walk across hanging bridges in the rainforest, a dip in soothing geothermal springs nestled among powerful volcanoes, historic San José and a taste of the rich culture—coffee and chocolate. Accommodations are for two nights in the deluxe HOTEL ROYAL CORIN and two nights in the hacienda-style COSTA RICA MARRIOTT HOTEL SAN JOSÉ.

The Pre- and Post-Program Options are available at additional cost. Details will be provided with your reservation confirmation.
The classic M.S. SERENISSIMA entered service in 2013 under new ownership following a complete refurbishment. The descendant of a long line of sturdy Norwegian coastal steamers, this exclusively chartered, 90-passenger vessel perfectly fits the profile of small ship cruising and can navigate scenic shorelines, dock in the heart of historic cities and sail into smaller, remote ports inaccessible to larger ships.

Each comfortable Suite and Cabin is attractively furnished in charming Gustavian style, a bright 18th-century Swedish country ambiance that perfectly fits this vessel and provides an intimacy and classic nautical sensibility found only aboard a small ship. All accommodations feature a private bathroom with shower, individual climate control, telephone, satellite television, safe and hair dryer. Executive Suites feature private balconies, the two Owner Suites are exceptionally large with wrap-around ocean-view windows, and most cabins feature an ocean view. Because the M.S. SERENISSIMA is a traditional vessel, each cabin is unique, with variances in size and configuration.

The light and airy Venice Restaurant accommodates all guests at a single, unassigned seating. Buffet breakfast, buffet lunch and four-course dinner are served daily featuring tasteful continental cuisine and local specialties. Complimentary house wines, beer, soft drinks, mineral water, coffee and tea are served with lunch and dinner.

The inviting public areas include an all-teak Sun Deck with teak deck chairs, spacious observation deck, two lounges, library with computers and Internet access, fitness room and massage services. The ship also offers laundry service and has an elevator.

The M.S. SERENISSIMA meets the most stringent standards of construction, dependability and safety requirements and possesses state-of-the-art navigational equipment and stabilizers. The English-speaking, European crew provides courteous, professional service, and there is a physician on board.

The Panama Canal 101st Anniversary

Experience firsthand the “greatest liberty ever taken with nature,” which cuts through the Great Continental Divide, spans 50 miles and took 33 years to complete at a cost of $400 million. This historic engineering feat changed the world, opening up new channels of international trade and allowing ships to travel between the Atlantic and Pacific Oceans in a fraction of the time.

After France’s failed attempt to build a sea-level canal here in the 19th century and following the U.S. involvement in Panama’s independence, the project was turned over to the U.S. in 1903 and construction began during the presidency of Theodore Roosevelt. Among the 100,000 workers involved in the construction was French Post-Impressionist artist Paul Gauguin. When completed in 1914, the Panama Canal was considered one of the seven wonders of the modern world. Now, one hundred one years later, the Panama Canal is undergoing a $5.25 billion expansion, adding a wider third lane that can accommodate more than twice the cargo of the current lanes, maintaining its status as the gateway to the world.

The 580-foot-long S.S. Kroonland was the largest passenger ship of its time to transit the Panama Canal in 1915.

Tens of thousands of workers labored and sacrificed to complete the largest engineering endeavor of the early 20th century.
